

KING OF PEANUT BUTTER: CRAZY RICHARDS BRAND REVIEW

Loved by all age groups, ethnicities, cultures, and regions, peanut butter is the best source of protein. It is a perfect element to spread on the toast or to pair up with a simple slice of bread. Made from crushed roasted peanuts, it's a satisfactory element with which you can never go wrong when hungry. Now, the chaos might arise when you're looking forward to not only choosing the right flavor but the right brand as well. A brand name adds an extensive market value for the buyer. While selecting the products from the FMCG (fast-moving-consumer-goods) sector, one must consider various prerequisites.

So, here we go, giving you the introduction to the best brand of peanut: CRAZY RICHARDS.

WHY CRAZY RICHARDS?

In business since 1893, maintaining its originality and simplicity, Crazy Richards uses the natural process of making the peanuts. Usually, companies prefer a mixture of oils, sugars, and other chemicals to prepare a crunchy peanut sauce. It's different at Crazy Richards because they prefer the natural source of techniques. By doing so, they not only reduce the cost of production but keep the selling price minimal as well. Hence, you get an inexpensive purely natural delicious product to consume.

BENEFITS OF NATURAL PEANUT BUTTER

You had a crazy day at work, and you returned home exhausted. When nothing else is in sight to eat you just grab an ice-cream-tub and add some peanut butter on top of it, suddenly you're oozing with energy.

Wonder why? Because the mixture of salt and roasted grinded peanuts is comprised of the following minerals and vitamins:

1. Vitamin B3
2. Vitamin E
3. Vitamin B6
4. Magnesium
5. Copper
6. Manganese

These vitamins and minerals help boost the immune system, thus increasing the metabolism and energy in the body instantly.

PROS OF CRAZY RICHARDS

1. Contains only peanuts.
2. No added sugar and salt.
3. Purely vegetarian breed of peanut butter.
4. Smoother than many other peanut butter.
5. Rich in flavor and taste.
6. Creamy and fluffy.
7. Melts in the mouth easily.
8. Leaves a raw taste in the mouth.
9. Available at a fair price.

CONS OF CRAZY RICHARDS

A quality product is also bound to have a drawback or two, after all nothing of value can last forever. So, do the best of the best approved peanut butters.

1. Low Shelf Life.
2. Since it's entirely natural, it requires mixing every now and then or the oil will freeze on top of the jar.
3. The peanut butter can go smelly if preserved for longer than its date of expiry.

ALIKE CRAZY RICHARDS BRAND

Like every product brand has got its secondary best, so does this chewy and even product. Some of the brands you can consider alongside while making your pick are:

- . JIF
- . PETER PAN
- . SKIPPY
- . ALPINO
- . PINTOLA

These are all organic brands as well which use almost natural to conventional techniques of preparation. Yet, the purpose is to provide a quality taste to the peanut.

CONCLUSION

Now that you're aware of what to consider and what not to while making the purchase of the peanut butter, then I hope your next visit to the departmental store would be worthwhile. From all the options provided, may CRAZY RICHARD find its way into your shopping cart. Stay glued to us for more insights on various other exciting product brands as our main aim is to make shopping easier and faster.
